

**Community Toilets-**

In the previous financial years, out of 415 Gram Panchayats of the district Lalitpur, 402 community toilets have been constructed in 400 Gram Panchayats with the funds of Gram Panchayat and P.I.G.F. In the remaining 15 Gram Panchayats, the non-availability of adequate land for construction of community toilets was communicated through a proposal.

Out of 402 Community Toilets constructed, some of the Community Toilets have reported non-functioning due to breakdowns, fittings, potholes, lack of water supply and caretakers at Gram Panchayat and Block level against which action is being taken to make the defunct Community Toilets fully operational so as to stabilize the situation of ODF in rural areas.
