

Solid Waste Management (SWM) - Village level activities

Separate write up on the proposed strategy for SWM in the State including O&M arrangements to be attached

States are to fill relevant data in the designated boxes. Colored boxes (with pre filled data) are not to be edited

Villages covered with SWM should have arrangements for collection of waste (from households, public places, and institutions), its transportation to village collection centre/storage shed (including for plastic waste), and adequate composting arrangements (individual/community level) and is to be certified by GP resolution

PART - A
