

Solid Waste Management

In the financial year 2022-23, 2023-24 and 2024-25, 677 revenue villages of all 415 Gram Panchayats of the district Lalitpur have been selected for developing ODF Plus model villages. In the selected villages, the action plan of the Gram Panchayats was prepared as per the amount permissible based on the population of more than 5000 and less than 5000. As per the Action Plan, construction of Integrated Solid Waste Management Centre, compost pits, plastic banks etc. have been taken up. For the regular and regular operation of the Integrated Solid Waste Management Centre, work is being taken from the self-help groups working in the community toilets. The collected inorganic waste like plastic and glass bottles, iron, aluminium etc. are being disposed of through market linkages and the collected plastic waste through Plastic Waste Management Centre. Under the management process, the sale proceeds are being deposited in the OSR of the concerned Gram Panchayat, the proceeds will be used for long-term operation, maintenance and expenditure on labour as per requirement.

Such Gram Panchayats where works have been taken up as per the plan of action as per the funds sanctioned under Swachh Bharat Mission (Gramin) along with the availability of funds in the State Finance Commission / Central Finance Commission, but keeping in view the need of the communities in the Gram Panchayats, the number of units may be fixed for which separate funds will be required.
