

For Ballia district, the SWM arrangements are focused on transitioning villages to "ODF Plus" status. Based on the latest records for the district, here is the breakdown of the arrangements required and the current status:

1. Mandatory SWM Components for Ballia

As per the guidelines shown in your screenshot, for a village to be certified as having SWM arrangements, it must have:

Collection: Systems for door-to-door collection from households, public places, and institutions.

Transportation: Vehicles (tricycles or motorized) to move waste to a village collection center or storage shed.

Plastic Waste Management: A designated storage shed (MRF) for plastic waste.

Composting: Functional individual or community-level compost pits for biodegradable waste.

Certification: The Gram Panchayat (GP) must pass a formal resolution certifying these arrangements are operational.

2. Progress Status in Ballia (as of early 2026)
